

PEDIATRIC CARE

Personal and dependable care-giving services for infants and children

We care for you as if you were our family

At EQC Home Care we provide your medical support services in the comfort of your home. Our in-home care staff members work with you one-on-one, so you can build a trusting, personal relationship with your caregiver.

Personalized infant and child care services for residents living in Multnomah, Clackamas and Washington Counties.

At Essential Quality Care home care, we provide your medical needs in the comfort of your home. With each and every interaction, we want you to feel like family.

Our process starts with an in-person consultation and then we create a custom plan for your needs, goals, and budget.

EQC's pediatric care-giving services will place you with a professional who has the appropriate medical certification and knowledge for your child's needs.

Our personalized infant and child care-giving services include:

- Pediatric care
- Respite care
- Ventilation support services
- Diabetes support services
- And much more!

Our providers are specially trained to work with children and bring love and compassion to your home. Our staff can even teach families and non-family care providers to deliver custom home care support for medically stable individuals.
