

MEDICATION SERVICES

In-home medication management and administration

We care for you as if you were our family

At EQC Home Care we provide your medical needs in the comfort of your home. Our in-home care staff members work with you one-on-one, so you can build a trusting, personal relationship with your caregiver.

ESSENTIAL QUALITY CARE

We provide expert medication services for clients who reside in Multnomah, Clackamas and Washington Counties.

At Essential Quality Care, we understand that proper medication services is critical to our clients' well-being. Ultimately, our goal is to help you meet your goals and improve your health.

Our help and management in administering medication allows you to live with confidence that you are following your doctor's orders.

Our medication management services include:

Patient Education

EQC's owner; a registered pharmacist, will educate you about the medications you're taking and create a plan to help prevent dosing mistakes.

In-Home Administration

Depending on your needs, a registered nurse can come to your home and administer medications directly.

Reminders and Monitoring

For more independent clients, we offer medication support with timely reminders and dosage monitoring.

Our process starts with an in-person consultation and then we create a custom plan for your needs, goals, and budget. Call today and speak with a specialist.

Dr. Francis Djorgee, PharmD
